

**Aberford and District Parish Council
Neighbourhood Development Plan Management Group
Community Profile and Infrastructure Sub-Group**

Meeting Tuesday 12 February 2013 at 10.00 am

Notes

Present **Rachael Archer**
 David Duddell
 Derrick Mills
 Tom Picton Phillipps

Apologies **Shereen Lloyd**

The group met without an Agenda to discuss future actions by the group.

It was agreed that, in the light of the change to the re-drawn boundary for which the Plan is to be prepared, and the number of houses proposed to be built in the new area, there were no relevant considerations for the major utilities of Gas, Electricity and Water.

Public Transport is a concern but this is already under consideration through Councillor Robinson's survey of existing Bus Services.

Faster Broadband and better Mobile phone coverage are a concern but the group was not sure that these issues are for this group to be concerned with.

So far as Community Profile is concerned, our main source of information should be the Village Design Statement once this is available. Data obtained from Leeds City Council does not relate specifically to Aberford but groups the village with other communities.

Finally, it was agreed that the group needs a clearer set of priorities from the main group.
