There had been 41 completed questionnaires on the online survey and 10 written responses. There had been 80/90% support for the policies, aim and vision in general. The exception was the Parlington Policy which was only 75%. • MD had reviewed the responses and made comments on all of them with regard to their validity within the Plan. He has supplied this summary to the NDP group prior to the meeting. The group reviewed the comments and agreed which elements needed changing/amending and dealt with any queries raised. • The group ran out of time and will continue the review from 5.4 at the next meeting.
